Summary

I am a proficient, skilled and experienced programmer with a passion for creating software solutions that meet the needs of businesses and organizations. I possess a strong understanding of software development principles, programming languages, and database management that will bring great value to your organization. If you are seeking a professional with a proven track record in delivering robust, and scalable applications, I am confident in my ability to meet your expectations.

IT Skills

- Proficient in HTML/CSS, and JavaScript
- Understanding of web development concepts such as RESTful APIs, and Git version control
- Experience with front-end libraries like ReactJS, Typescript, Redux, React Router, and React-Bootstrap
- Ability to write clean, efficient, and well-documented code
- Project management and multitasking abilities
- Can provide end-user support for hardware, software, and network-related issues.
- Ability to collaborate with cross-functional teams to plan and execute IT projects, including system upgrades, migrations, and deployments
- Ability to administer and maintain servers, including installation, configuration, and troubleshooting of servers
- Ability to set up and configure workstations such as computers, printers, routers, wireless access points and other peripheral devices
- Experience with data entry
- Strong knowledge with microsoft word, excel, and powerpoint

Experience

September 2022- May 2023, Contract

Rotex, Cincinnati, OH- Contract- Developer

- Assisted with the improvement and advancement of the application
- Utilized expertise to create, enhance, program, examine, and troubleshoot solutions
- Assisted in all stages of the Software Development Life Cycle, as well as ongoing operation and maintenance
- Collaborated with the designer to define new objectives and features for the web application

- Provided support and technical guidance throughout all phases of development, from inception to implementation

2020 - 2022

Bandera Family Healthcare, CO- *Computer Technician/Developer*

- Worked closely with back-end developers to integrate front-end components with server-side APIs.
- Collaborated with UI/UX designers to ensure seamless integration of design concepts into the front-end code.
- Implemented front-end functionality and user interfaces for web applications using React and Redux.
- Developed and maintained responsive and user-friendly websites using HTML, CSS, and JavaScript.
- Continued learning and staying updated with the latest front-end technologies and best practices.
- Identified and resolved technical issues and challenges that arise within computer systems, networks, software, or hardware
- Kept computer systems up-to-date and properly maintained
- Applied patches, updates, and security measures, as well as monitored system performance and addressed any issues
- Provided assistance and support to end-users
- Troubleshoot over the phone, email, or in person
- Implemented backup solutions and recovery plans to ensure data can be restored

Education

Udemy, Online – *React and Redux*

Learned about class components and hooks, how to make API calls to backend servers, best practices on styling components, organizing components, and became fluent in NPM, Webpack, Babel, and ES6/ES2015 Javascript syntax.

Udemy, Online – *Javascript: Understanding the Weird Parts*

Learned about data types, high order functions, promises and async/await, loops, the call stack and heap, hoisting, functions, conditionals, and much more

San Antonio College, San Antonio , TX – *Associates of Science in Emergency Medical Services*

Personal Skills

- Strong problem-solving and analytical skills
- Excellent communication and collaboration abilities

- Detail-oriented and highly organized
- Ability to work independently or as part of a team
- Excellent communication and interpersonal skills
