Education

2011 - 2013

San Antonio College, San Antonio, TX - *Associates of Applied Science*

2021

Udemy Online - *JavaScript Understanding the Weird Parts*

Throughout this course, I developed web applications using HTML, CSS, and Javascript. I gained knowledge on a variety of concepts, including data types, high-order functions, promises and async/await, loops, the call stack and heap, hoisting, functions, conditionals, and numerous other topics.

2021

Udemy Online - *React and Redux*

During this course, I acquired knowledge about class components and hooks, techniques for making API calls to a backend server, effective approaches to styling and organizing components, and developed proficiency in utilizing NPM, Webpack, Babel, and ES6/ES2015 Javascript syntax.

Experience

I have committed my spare time to learning how to construct websites and databases using a variety of technologies including JavaScript, HTML, CSS, React, NodeJS, MongoDB, and Microsoft Azure. Now, I am looking to advance my technology career to the next level as a full-time web developer by leveraging my newfound skills and knowledge.

2022 - Present

Rotex, Cincinnati, OH - *Assistant Manager*

- I guided clients around the facility, demonstrating the process of manufacturing machine construction.
- Provided clients with cost approximations for our products.
- Addressed any inquiries or concerns that clients had.
- Aided clients in completing paperwork.
- Inputted document details provided by clients into our computerized system.
- Supported the manager and stepped in when required.

August 2021 - September 2021, Contract

Druksys, San Antonio, TX - *React Developer*

- Produced and launched web pages utilizing ReactJS

- Edited and integrated foundational Javascript code
- Contributed to the testing and coding of new features
- Provided support in software design throughout the entire process
- Maintained the database environment
- Created React and Express scripts to facilitate data translation between applications

2018 - 2022

United Airlines, Denver, CO- *Ramp Service Agent*

- Lifted luggage, boxes, or cargo weighing up to 70 lbs. When loading/unloading aircraft, carts, and containers
- Loaded/unloaded over 100 items for a single aircraft
- Pushed/pulled loaded and emptied carts and containers during loading/unloading operations
- Coupled/uncoupled carts and/or cargo container dollies
- Ascended/descended jet-way stairs while carrying luggages
- Bend/stooped and crawled to move and stack/unstack cargo in aircrafts and containers
- Completed safety checklists for motorized equipment
- Drove and operated motorized equipment (e.g., conveyor belt)
- Read and interpreted aircraft load sheets, checked luggage tags, and cargo labels
- Counted luggage/cargo being uploaded/unloaded during operations
- Used signaling devices to communicate with co-workers or flight crew
- Ensured compliance with United and Federal Aviation Administration (FAA) regulations and policies
