## Education

Graduated 2020

**Texas A&M University, San Antonio , TX** – *Bachelor of Science in Computer Science*

2021

**Udemy Online** – *JavaScript Understanding the Weird Parts*

Throughout this course, I developed web applications using HTML, CSS, and Javascript. I gained knowledge on a variety of concepts, including data types, high-order functions, promises and async/await, loops, the call stack and heap, hoisting, functions, conditionals, and numerous other topics.

2021

**Udemy Online** – *React and Redux*

During this course, I acquired knowledge about class components and hooks, techniques for making API calls to a backend server, effective approaches to styling and organizing components, and developed proficiency in utilizing NPM, Webpack, Babel, and ES6/ES2015 Javascript syntax.

## Skills

- Excellent problem-solving skills to troubleshoot and debug code issues that may arise during development
- Good understanding of HTML5, CSS3, Javascript, ReactJS, Bootstrap, NodeJS, and SQL
- Experience using development tools such as Visual Studio Code, Webpack, Babel, and npm.
- Experience in using contemporary front-end libraries such as Styled-Components, React-Router, and Redux.
- Familiar with testing frameworks such as Jest and Jasmine to ensure code quality and application reliability.
- At ease with working with different REST APIs.
- Strong understanding of JavaScript.

## Experience

20221 - 2023, Contract

**Druksys, San Antonio, TX**– *React Developer*

- Produce new features using React and Node.
- Generate React components that can be reused in future projects.

- Maintain and extend integrations with our JavaScript-based applications, as well as create new ones.
- Develop SQL Server databases and scripts that leverage data in existing systems.
- Work independently with little oversight.
- Possess a keen interest in staying abreast of the latest technological advancements.
- Collaborate with non-technical stakeholders to gather specifications and resolve application problems.
- Developed and maintained client website using HTML, CSS, and JavaScript, and NodeJS
- Created custom themes and plugins using JavaScript
- Conducted website audits to identify and resolve performance and security issues
- Worked closely with project managers and clients to ensure project milestones were met on time and within budget
